

# Changes are coming to MaineCare

What you need to know to stay covered.

Updated March 2023

During the Covid 19 pandemic, most MaineCare members could keep their MaineCare even if they experienced changes that would have otherwise made them ineligible. This was called “continuous coverage.” **Continuous coverage will ended April 1, 2023.** People with MaineCare will need to update their information to see if they can keep their coverage.

- MaineCare members must complete an annual review to see if they are still eligible for MaineCare. People who are no longer eligible or do not complete their annual review could lose their MaineCare coverage.
- Members who lose MaineCare after completing a review may be eligible for a [special enrollment period](#) through Maine’s health insurance marketplace at [CoverME.gov](#).
